Sponsorship Package
2025

newwestfilmfest.com

The New West Film Society began in 2011, when a group of environmentalists screened climate action documentaries to promote community engagement about environmental issues. In 2015, we expanded our annual documentary film festival to include narrative and experimental feature and short films. We are proud to be known as a “filmmakers festival”, because we promote films of strong local relevance, and present films from across Canada and around the world

FILM FESTIVAL

- Premieres and screenings of award-winning films, most of which will not be commercially released in Canada;
- Showcasing the next generation of Canadian and international filmmakers

FILM DISCUSSIONS

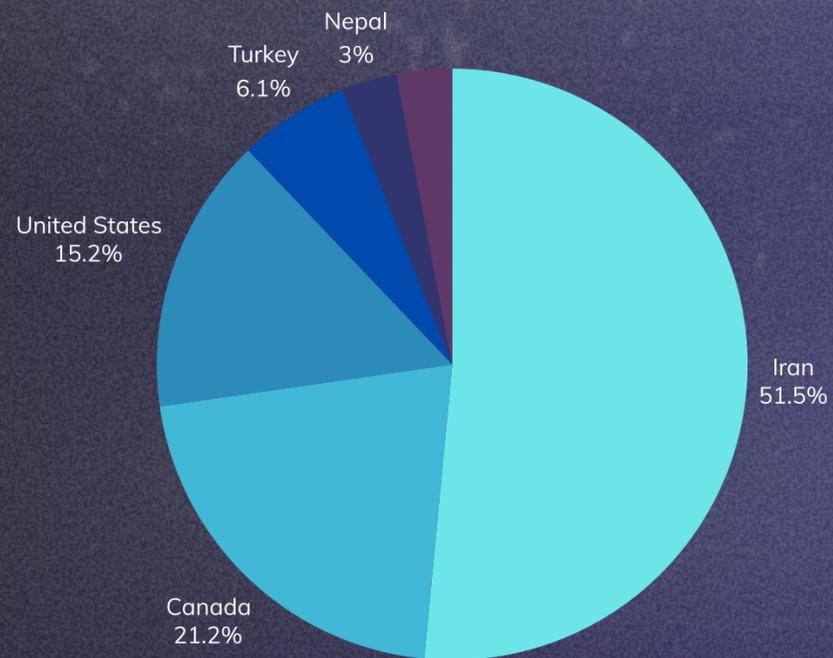

- Interactive panel discussions and mediated Q & A's.
- Multi-media art and music presentations

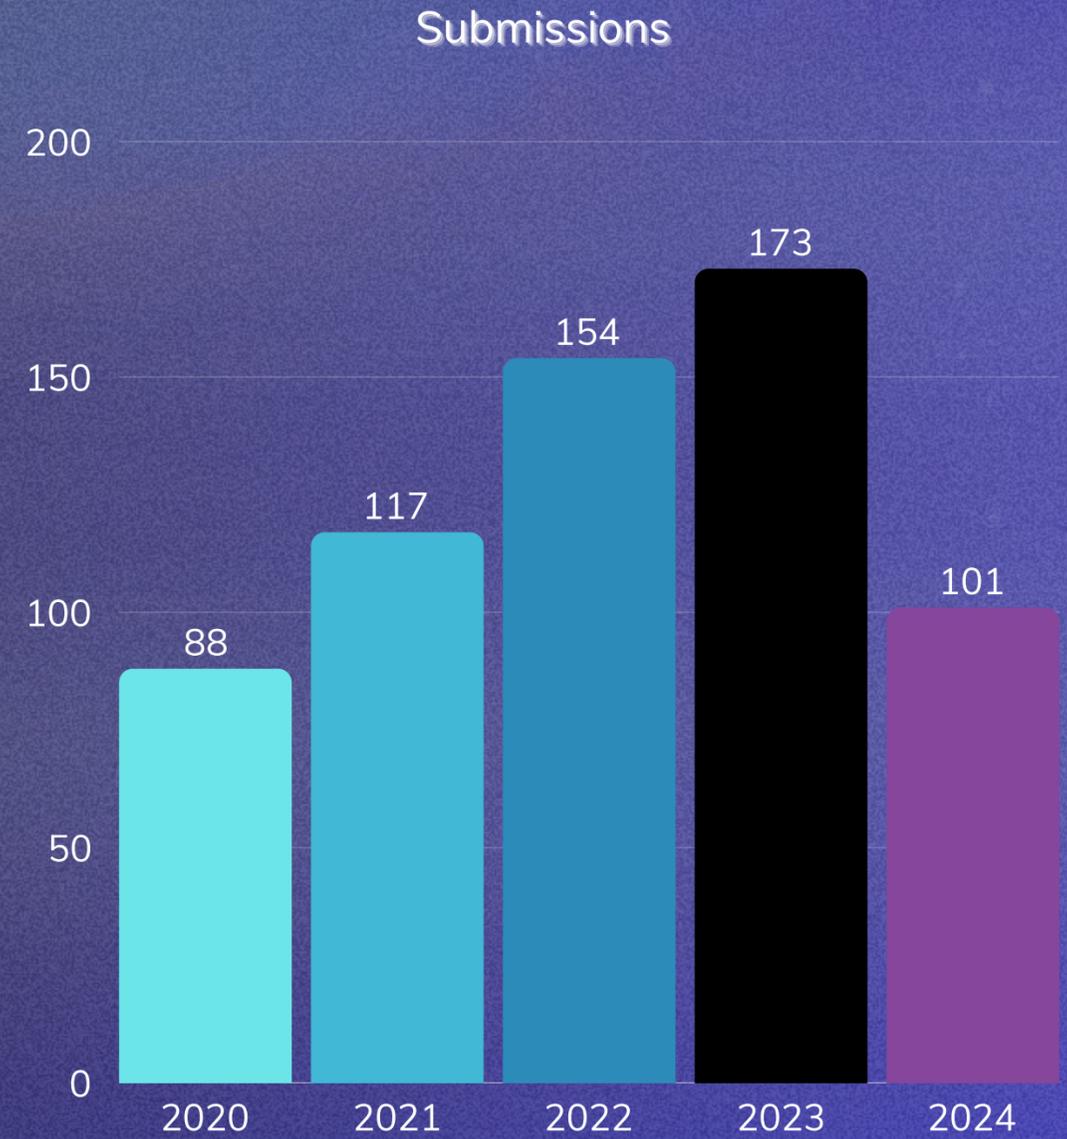

COMMUNITY MINDED

- Community events including:
- Oscar watch party;
 - Pop up film screenings;;
 - Volunteer programs;
 - Games nights and more!
